INTRODUCTORY

It is our aim in getting out this catalogue to bring to the trades notice the high grade cast iron goods that we have been making for many years and also to several additions that we have lately made.

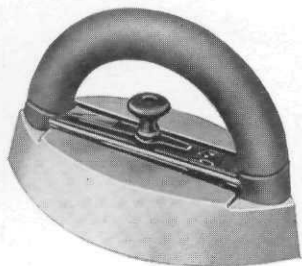

These goods are all made of the highest quality of pig iron which insures their lasting qualities. They are also cast free from fins which insures their selling qualities.

We wish to thank our patrons for the business they have given us in the past and to ask for their continued good will.

We are always glad to make prices on any new line of castings that any of our friends are in need of.

Eccentric Stove Kettles and Pots

The great advantages of this ware will be readily seen by a glance at illustrations below. The peculiar construction of bottoms enables them to be used on either size hole designated by the number, a feature recommending itself to all dealers. They can also be used on smaller top stoves by turning narrow rims of bottoms together.
